Process motif count data

Michael Gilchrist

date: 2022-10-20

Goal

- Developing code for processing motif_count
- Idea is to index processing by date and then have other code load data in output/ found in this
 directory.

Set up

Load libraries

```
## load libraries
library(stats)
require(MASS) # provides negative binomial fitting: qlm.nb
## Loading required package: MASS
library(RSQLite) # Don't think we need this.
library(rTPC) ##
library(nls.multstart)
library(broom)
library(tidyverse)
## -- Attaching packages
## tidyverse 1.3.2 --
## v ggplot2 3.4.0
                          v purrr
